EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gary C. Cohn on 3-25-97

2. The application has been amended as follows:

IN THE CLAIMS

Claim 1, line 7: delete “, optionally in admixture with an inert solid diluent”

3. The following is an examiner's statement of reasons for allowance:

The closest references are Holt et al. (USPN 4,988,645) and Holt et al. (USPN 4,877,759) which teach making an AlN body via combustion synthesis by igniting Al powder in a nitrogen atmosphere. However the prior art does not teach the use of gaseous nitrogen at such low pressures as 0.75-30 atmospheres while still converting 75% of the aluminum into aluminum nitride. Holt et al. (USPN 4,877,759) does teach that the minimum nitrogen pressure below which ignition and subsequent combustion will not take place is determined by the type of

Art Unit: 2204

aluminum used, its particle size, and type of diluents used.¹ The minimum pressure Holt et al. teaches is 100 atmospheres² and there is no teaching or fair suggestion by the prior art showing how to reduce this minimum by modifying type of aluminum used, its particle size, type of diluents used, or by any other method in order to convert 75% of the aluminum into aluminum nitride as recited in applicant's claims. The prior art also does not teach or suggest infiltration with a polymer as recited in applicant's claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to whose telephone number is (703) 305-1840.
